Côtes du Roussillon Villages Caramany

Mas des Estagnols is a small building made of Catalan stone, located in the heart of the Agly Valley (Pyrénées Orientales) and the Cotes du Roussillon Villages Caramany AOC. With its terroir of gneiss and mountain granite sand, the domaine is able to bring out all the typical character of the Caramany wines. It is also known for its well, which used to be used to irrigate the gardens. It is now a decorative feature but it still symbolizes this lieu-dit (local spot) known as "Mas des Estagnols".
