Domaine NUDANT has been family-owned for nearly 200 years and covers 17 hectares in the commune of LADOIX-SERRIGNY and the surrounding communes of PERNAND, ALOXE-CORTON, SAVIGNY and CHOREY, with most of the vineyards located on the Corton Hill. This domaine produces an impressive range of major appellations, which regularly pick up awards. In 1978, Jean-René joined the family business and 25 years later, his son Guillaume, joined the fold. Jean-René Nudant is a dedicated viticulturist, always on the lookout for those small details that will improve quality. Very few wine growers have taken the study of the soil as far as he has, digging deep trenches to understand the structure of the soils in which his vines grow in order to adapt the work on the vines to suit each plot. The domaine manages its vineyards sustainably (no weeding, frequent ploughing, use of organic manures). The vinification is traditional and followed by two years' ageing in oak barrels (one third of which are new), which gives the domaine's wines the distinctive character unique to fine Burgundies.
