Vigneron indépendant

It is at the crossroads of the sea wind and the cers, on the location of a Roman farm where we already cultivated the vine and the olivetree, that Jean-Marc and his wife Anna took over the exploitation family of 21 hectares in 2000. These two lovers of the vineyard and the wine, maintain family traditions and contribute over the years to the reputation of the domaine des HOMS. Ideally planted on stony terraces at the foot of the black Mountain, this estate offers local wines closer to nature. Since 2007, Jean-Marc and Anna have made the choice to convert to organic farming to harmonize the vine, the soil and its direct environnement.
